PROFESSIONAL SUMMARY

Entry-level **Frontend Developer** skilled in **HTML5, CSS3, SASS and JavaScript**. Proven ability to build responsive, user-centric web applications while **actively contributing to collaborative environments through clean, maintainable code and a commitment to team goals**. Dedicated to optimizing web performance and delivering seamless digital experiences.

SKILLS

Technical Skills

- HTML, CSS, JavaScript, SCSS

Tools & Technologies

- VS code, Chrome DevTools, Git & Github

Core Competencies

- Attention to detail
- Technical Communication
- Problem solving & Debugging
- Time Management

PROJECTS

Shopping List Manager | *JavaScript & SASS*

- **Built** a dynamic inventory app that allows users to add, edit, and filter items in real-time.
- **Implemented** Local Storage so user data is saved automatically even after refreshing the page.
- **Refactored** the styling from CSS to **SASS**, using variables and nesting to make the code cleaner and faster.

Pig Game Application | *JavaScript Game Logic*

- **Developed** an interactive 2-player game using **JavaScript** and DOM manipulation.
- **Wrote** the logic to handle complex game states, including score tracking, player switching, and winning conditions.
- **Designed** a responsive layout using **CSS Flexbox** that adapts perfectly to different screen sizes.

Personal Portfolio Website | *Web Design*

- **Designed** a professional portfolio using **Semantic HTML5** and **CSS** to showcase technical projects.
- **Used** a mobile-first approach to ensure the site looks and works perfectly on phones, tablets, and desktops.
